

Remote Access Guide for MacOS Users

STAGE 1 – VMware Horizon Client Setup

Downloading

1. Open the following URL: <https://vdi.nnss.gov> or navigate to it by copy and pasting into any web browser's address bar.
2. Click on **Install VMware Horizon Client**.
3. Click on **Go to Downloads** and select the appropriate operating system.
4. Click on **Download** and save the file to your computer.

Installation

1. Double-click the file to begin installation. Note: This should be located in your “downloads” folder.
2. Click the **Agree** button.
3. Click and drag the “VMware Horizon Client” icon to the “Applications” folder.
Note: If you already have an older version of this application installed, you may receive additional messages. Click **Replace** to ensure you are on the latest VMware Horizon Client.

Configuration

1. Double-click on the **VMware Horizon Client** icon from the desktop.
2. After launching the application, double-click on **New Server**.

STAGE 2 - Using Your RSA Device

3. After selecting New Server above, Type in “connect.nv.doe.gov”.
4. Click **Connect**.
5. Click **Accept** and you will be prompted for your network username and RSA Passcode (8 Digit Pin + RSA Token (Key Fob)). After this is entered, click **Login**.
6. You will be presented with a prompt for your username and password. Enter your credentials and click **Login**.
